## XC 100

# BIZERBA

**Access to the future. The latest computer technology in a compact design teamed with an 'all-purpose' printer. The X-Class represents affordable access to high-performance PC-based scales with touchscreen operation. Comfortable, intuitive and easy to work with.**

**More information**  
High performance with a wide range of solutions and options.

### Product description

The Bizerba XC 100 counter scale combines all essential retail activities: weighing, transaction handling, printing and providing advice as well as displaying promotional messages and cross selling. Therefore, the XC 100 is excellently suited for fresh counters. It is ideal in support of proactively offering advice to customers. When combined with a cash drawer, it can also be used as a high-performance checkout solution.

The open PC platform offers sufficient capacity to cope with new features or customer-specific requirements in the future. Even the use of 3rd-party software presents no problems. The 'all-purpose' printer is unique to the market and can perform every conceivable printing task that can be required of a weighing device. Furthermore, replacing the paper roll is a very brief and intuitive process, and daily cleaning of the scale can be carried out quickly and easily. This is supported by each scale's compact design, the Easy Clean surface of the housing and the newly developed, frameless Easy Clean display.

XC 100 with 10.1" operator display

### Highlights

- Easy Clean for quick and easy cleaning of the scale
  - Surface: problem free removal of stray labels
  - Displays: frameless for maximum cleaning efficiency
